Bharat Forge Clinches Coveted CII Industrial Innovation Award 2023

~ Bharat Forge recognized for pioneering technological advancements across automotive and defence sectors ~

Pune, 06 January 2024: In a momentous achievement, Bharat Forge Ltd., a Pune-based multinational conglomerate has been honoured with the prestigious **Industrial Innovation Award 2023** by the Confederation of Indian Industry (CII). The accolade acknowledges Bharat Forge's relentless pursuit of excellence in technology, innovation, and research and development across diverse sectors, including automotive and defence.

Bharat Forge's commitment to advancing technology and pioneering innovations has set a remarkable standard in the industry. The company's accomplishments span a spectrum of sectors, contributing significantly to India's prowess in innovation and cutting-edge solutions. From automotive breakthroughs to advancements in defence technologies, Bharat Forge has consistently demonstrated its commitment to pushing the boundaries of what is possible.

The CII Industrial Innovation Awards, instituted in 2014, serve as a platform to recognize and celebrate groundbreaking innovations within the Indian business landscape. Over the years, these awards have become a benchmark for excellence, showcasing the ingenuity and competitiveness of Indian enterprises on both domestic and global stages.

Bharat Forge's success in securing the CII Industrial Innovation Award 2023 solidifies its position as a trailblazer in the industry. The company's dedication to research and development and its continuous pursuit of technological advancements reinforce its commitment to driving innovation for a sustainable and prosperous future.

About Bharat Forge:

Bharat Forge Limited (BFL) is the flagship company of the USD 3 billion Kalyani Group and a global provider of high performance, innovative, safety & critical components and solutions to various sectors including Automotive, Railways, Defence, Construction & Mining, Aerospace, Marine and Oil & Gas. BFL today has the largest repository of metallurgical knowledge in the region and offers full-service supply capability to its geographically dispersed marquee customers from concept to product design, engineering, manufacturing, testing and validation. At the cusp of a breakout growth & transformation into an engineering conglomerate through its aggressive foray in capital goods and infrastructure sectors, BFL is committed to proactively expedite India's transformation into a global economic powerhouse.
