## PRESS RELEASE

**Bharat Forge recognized as an Asia-Pacific Climate Leader 2023 by The Financial Times and Statista**

**Pune, 24 July 2023** – Bharat Forge Ltd., a leading manufacturer of metallurgical components for automotive & Industrial application has earned a prestigious spot on the Financial Times and Statista’s coveted list of Asia-Pacific Climate Leaders 2023. The recognition reflects Bharat Forge's progress in reducing Greenhouse Gas (GHG) emission and its steadfast commitment to combating climate change, underscoring its dedication to environmental stewardship.

**Mr. Amit Kalyani, Joint Managing Director, Bharat Forge Ltd.**, said, *"We are immensely proud to be recognized as one of the Asia-Pacific Climate Leaders 2023. At Bharat Forge, we firmly believe that sustainability, growth, and progress go hand-in-hand. We will continue to work on reducing usage of natural resources and bringing down our carbon footprint."*

The Asia-Pacific Climate Leaders 2023 list features companies headquartered in the Asia-Pacific region with a minimum revenue of USD 50 million in 2021. Among the criteria considered were transparent reporting of scope 1 and scope 2 emissions for the years 2016 - 2021, annual reduction of emissions intensity of at least 3% over the five-year period from 2016 to 2021, and a minimum CDP score of 'B', if emissions were reported to the CDP. Additionally, a commitment with the Science Based Targets initiative and transparent reporting of scope 3 emissions for 2021, ideally including more than five scope 3 categories, were also essential factors in the selection process.

**About Bharat Forge**

Bharat Forge Limited (BFL) is the flagship company of the USD 3 billion Kalyani Group and a global provider of high performance, innovative, safety & critical components and solutions to various industrial sectors including Automotive, Railways, Power, Construction & Mining, Aerospace, Marine and Oil & Gas. BFL today has the largest repository of metallurgical knowledge in the region and offers full-service supply capability to its geographically dispersed marquee customers from concept to product design, engineering, manufacturing, testing and validation. At the cusp of a breakout growth & transformation into an engineering conglomerate through its aggressive foray in capital goods and infrastructure sectors, BFL is committed to proactively expedite India's transformation into a global economic powerhouse.
