

Israel Aerospace's accelerator seeks to support Indian start-ups

Scouting for aviation, defence companies that have passed seed stage

AMRITA NAIR-GHASWALLA

Mumbai, July 5

Israel Aerospace Industries (IAI), which is to supply systems for Barak 8 surface-to-air missiles to Bharat Electronics Ltd for installation on Indian warships, is looking to engage with start-ups that work in the field of aviation and defence.

The decision has sparked interest among Indian conglomerates such as the Kalyani Group and Piramal Enterprises.

As Israel continues to produce an impressive number of highly successful tech start-ups — earning it the moniker 'Start-up Nation' — IAI is keen to build what is being referred to as the country's first aviation accelerator.

The Bedek Aviation Group, IAI's biggest division that conducts heavy aircraft maintenance and upgrades, and converts aircraft to various specified configurations such as aerial refuelling and cargo, will host the accelerator. The aim is to identify start-ups that have passed the seed stage, so that their products can be

The start-ups will utilise IAI's infrastructural facilities as well as professional guidance from leading aviation specialists.

used by IAI, said officials.

The start-ups will utilise IAI's infrastructural facilities as well as professional guidance from leading aviation specialists.

Israel's aviation accelerator has sparked interest among Indian firms, with the \$3-billion Kalyani Group looking to up the ante, given its association with IAI. In February, the group's defence arm Kalyani Strategic Systems had inked an MoU with IAI to incorporate a joint venture company in India.

Baba Kalyani, Chairman of

Bharat Forge, the flagship company of the Kalyani Group, told *BusinessLine* that collaborating with hi-tech aviation and defence experts as well as start-ups would help Indian firms "get access to critical technology which is the need of the hour in defence and aviation."

The group, which is also into aerospace, has built strong ties with foreign partners over the years for specialised raw materials.

It is keen to become a strategic player in the global aerospace supply chain, with its forged and machined products and assemblies, and aims to achieve \$100 million in revenues from that sector.

"Our JV with IAI will manufacture specific air defence systems. Since we have been supplying components for aircraft and make metal components in super alloys and titanium, new technologies used by start-ups in the aerospace sector could be critical for India's aviation space," said Kalyani.

Piramal Enterprises holds a minority equity stake in Israeli firm BlueBird Aero Systems, which manufactures tactical unmanned aerial systems and peripheral equipment.

Kalyani group expands Israeli joint venture

■ puneletters@hindustantimes.com

PUNE: During the three day visit of Prime Minister Narendra Modi to Israel this week, Israel Aerospace Industries (IAI) and Kalyani Strategic Systems Ltd (KSSL), subsidiary of Bharat Forge Limited, signed a Memorandum of Understanding (MOU) addressed to expand the Joint Venture (JV) that the companies are establishing.

The new MOU covers the establishment of a maintenance centre for selected advanced air defence systems in Hyderabad. The two companies have also agreed on expanding their joint operations for development, manufacturing and marketing of precise ammunition systems,

according to a press release issued by the Kalyani group.

Earlier this year, the IAI had inked the MOU with Kalyani Strategic Systems Ltd (KSSL) on establishing a joint venture that will develop, build, market and manufacture selected air defence systems and light weight special purpose munitions, in accordance with the Indian government's 'Make in India' policy.

Chairman and MD, Bharat Forge Limited, Baba Kalyani, who is accompanying Modi on his Israel trip, said, "In line with our Prime Minister's idea of forging a technology based partnership with Israel, this joint venture with IAI furthers the idea of Indian government's 'Make in India' initiative and will provide world class solutions including

life-cycle support to Indian defence. I also consider that it augments the group's efforts in developing and manufacturing state-of-the-art indigenous systems in niche technology areas of defence sector in India."

Joseph Weiss, IAI's President and CEO said, "India has been IAI's partner for many years as well as a key market for us. The Indian government's 'Make in India' initiative requires of international companies to rethink their operations in India. The changes in India have not gone unnoticed by IAI and we have been revamping all of our operations in India and believed that together with our partners in Kalyani group, we will preserve our position in India for both countries continued growth."

grate strategic state-of-the-art defence systems for the Indian MOD in accordance with the Indian government's 'Make in India' policy, a statement from KSSL said.

"The JV company will combine IAI's advanced technology, knowledge and experience as an OEM with the worldclass design, development and manufacturing capabilities of the

Kalyani Group. The joint venture will provide indigenously-manufactured solutions in niche technology areas of the defence sector, he said. Weiss, IAI's president and CEO, said with this partnership with KSSL, they were looking at spreading their footprint in India. IAI's missiles and space group has long relations in the Indian defence forces and industries and this is the next step in exploring new opportunities.

Rajinder Singh Bhatia, president & CEO, defence & aerospace, Kalyani Group, said Kalyani Group's manufacturing competence was well suited to complement IAI's products in niche segments and together they would provide advanced solutions to the country's armed forces.

Kalyani Group, Israel's IAI set to form joint venture

ANIL URS

Bengaluru, February 15

Kalyani Strategic Systems Limited (KSSL), the defence arm of Kalyani Group, and Israel Aerospace Industries (IAI) signed a Memorandum of Understanding (MOU) to incorporate a joint venture company (JVC) in India.

The MoU was signed in Bengaluru at Aero India, by Joseph Weiss, IAI's President and CEO and Baba Kalyani, Chairman, Kalyani Group.

Partnership

As part of the MoU, IAI and KSSL aim to expand their presence in the Indian defence market and to build, market, and manufacture specific air defence systems and ground-to-ground and ground-to-sea munitions.

The MoU is the first step of

IAI and KSSL aim to expand their presence in the Indian defence market and to build, market, and manufacture specific air defence systems and ground-to-ground and ground-to-sea munitions

a process to establish a JVC between the two companies. The JVC will integrate strategic defence systems for the Indian Ministry of Defence (MoD) in accordance with the Centre's 'Make in India' policy.

Baba Kalyani, speaking after signing the MoU, said: "The joint venture company will combine IAI's advanced technology, knowledge and experience as an OEM with

world-class design, development and manufacturing capabilities of the Kalyani Group. The joint venture will provide indigenously manufactured solutions in niche technology areas of defence sector, thereby furthering the 'Make in India' initiative of the government."

'Make in India'

Joseph Weiss, IAI's President and CEO, said: "We are excited to announce the next step in our partnership in India, one of IAI's leading markets. This collaboration brings together the manufacturing and technology excellence of two leading companies and we hope we can continue with our partners at KSSL to spread our footprint in India and to

continue our vast work with the 'Make in India' policy".

Rajinder Singh Bhatia, President and CEO (Defence and Aerospace), Kalyani Group, said: "Kalyani Group's manufacturing competence is well suited to complement IAI's products in niche segments. Together, we shall provide the most advanced solutions to our armed forces".

Boaz Levi, Executive Vice-President and General Manager of Systems, Missiles & Space Group, said: "IAI's missiles and space Group has long relations in the Indian defence forces and industries, and we are happy to join hands with Kalyani Group, one of India's leading companies to explore future opportunities for both countries strength".

Indian, Israeli defence firms join hands

SPECIAL CORRESPONDENT

NEW DELHI

On the sidelines of Prime Minister Narendra Modi's visit to Israel, Indian and Israeli companies entered into agreements to bid jointly for defence contracts for the Indian military and locally build the systems under "Make in India".

Bharat Forge and Israel Aircraft Industries (IAI) have signed an MoU to expand the joint venture that the companies are establishing as part of a February 2017 agreement meant to de-

velop, build, market and manufacture selected air defence systems and light weight special purpose munitions.

"The new MoU covers the establishment of a maintenance centre for selected advanced air defence systems in Hyderabad in Telangana in India," Bharat Forge said.

Dynamatic Technologies, IAI and Elcom signed a strategic teaming agreement for industrial cooperation and local production of Unmanned Aerial Systems (UAS) in India.

KSSL, Israel Aerospace Industries sign pact on air defence systems

EXPRESSNEWSERVICE

PUNE, FEBRUARY 19

KALYANI STRATEGIC Systems Ltd (KSSL) and Israel Aerospace Industries (IAI) have entered into an MoU to strengthen the air defence systems.

Under the Make in India initiative, the MoU, which was signed in Bengaluru last week, aims at setting up a Joint Venture Company (JVC) in India.

"The joint venture will provide indigenously manufactured solutions in niche technology ar-

reas of defense sector, thereby furthering the Make in India initiative of the government," said Baba Kalyani, chairman, Kalyani Group.

Even though IAI's defence wing has a long-standing relation with India, this will be a different area of focus.

"This collaboration brings together the manufacturing and technology excellence of two leading companies. We are hopeful of continuing partnership at KSSL and spread our footprint in India," said Joseph Weiss, IAI's President and CEO.

Kalyani Group arm signs JV with IAI

TIMES NEWS NETWORK

Pune: Kalyani Strategic Systems Ltd (KSSL), the defence arm of the Kalyani Group, said on Wednesday it has signed a memorandum of understanding (MoU) with the Israel Aerospace Industries (IAI) to incorporate a joint-venture company (JVC) in India.

As part of the MoU, both the companies are aiming to expand their presence in the Indian defence market "to build, market and manufacture specific air defence systems and ground-to-ground & ground-to-sea munitions."

"The JVC will combine IAI's advanced technology, knowledge and experience as an original equipment manufacturer with world-class design, development and manufacturing capabilities of the Kalyani Group. It will provide indigenously

manufactured solutions in the niche technology areas of the defence sector," Baba Kalyani, chairman of the Kalyani Group, said in a statement.

The JVC will primarily focus on providing defence equipments to the country's armed forces. "Together, we shall provide the most advanced solutions to our armed forces," Rajinder Singh Bhatia, president and CEO, defence and aerospace, Kalyani Group, said.

IAI's president and CEO Joseph Weiss said the company hopes that it can spread its footprint in India.

Last year, the KSSL had entered into a JV agreement with Rafael Advanced Defense Systems "to address programs in relation to BMP II Upgrade, Tactical Control Systems, other Advanced Systems and other such programs."

IAI, KSSL sign MoU to expand joint venture

Tel Aviv: Indian and Israeli companies signed strategic pacts worth \$4.3 billion (excluding defence) on the sidelines of the first CEOs Forum held in Tel Aviv on Thursday. With Prime Ministers Narendra Modi and Benjamin Netanyahu presiding, almost 30 CEOs from both sides promised

► **FULL COVERAGE: P 12**

to power the economic and investment relationship.

The business leaders gave a thumbsup to the \$40 million innovation fund announced on Wednesday, but urged both governments to restart discussions on an FTA (free trade agreement) and investment protection pact to deepen economic ties.

They also sought easier re-

“There's nothing like going to the beach with friends!”

NETANYAHU'S TWEET AFTER VISITING OLGA BEACH WITH MODI ON THURSDAY

gistration of businesses in both countries, more connectivity by increasing direct flights, standardisation of requirement to make sure products are of the highest quality and promotion of tourism and cultural exchanges. The aim is to increase bilateral trade from the present \$4-5 billion to \$20 billion in five years.

The CEOs asked the Israeli government for longer-term multiple entry business visas, change of rules for investors, opening up of the agriculture sector for tie-ups

and knowledge transfer. Israeli businessmen said India should have more effective intellectual property protection. They also sought more worker visas, smoother dispute resolution and “encourage the full utilisation of buybacks, given the defence procurement from Israel”.

In their joint statement on Wednesday, the two governments acknowledged the validity of many of these recommendations.

Global aerospace firms use tie-ups to tap India market

Reliance Group Chairman Anil Ambani leaves with his team after flying the Rafale aircraft during the second day of the 11th biennial edition of AeroIndia 2017 at Yelahanka Air base in Bengaluru on Wednesday

ALNOOR PEERMOHAMED &
RAGHU KRISHNAN
Bengaluru, 15 February

Joseph Weiss, president of Israel Aerospace Industries Ltd (IAI), is bullish on India. His company is developing the medium-range surface-to-air missile (MR-SAM) with the Defence Research and Development Organisation (DRDO) and it has been expanding business.

At AeroIndia 2017 here, he signed a term sheet for a joint venture with Kalyani Strategic Systems, part of the Pune-based auto component maker Kalyani Group that is building a strong defence business. "We will transfer technology to build these products for India," said Weiss, who has similar ventures with Tata Advanced Material and Bengaluru-based Alpha Design. On Wednesday, Weiss also signed a contract with Dynamatics Technologies to build mini unmanned aerial vehicles (UAVs) for the armed forces.

Baba Kalyani, chairman of Kalyani, said collaborating with global partners would help

India firms get access to critical technology and help build systems and products for the armed forces. Early this week, Larsen & Toubro (L&T) and European missile specialist MBDA set up a joint venture to develop and supply missiles and missile systems for the local market.

At a seminar here on opportunities to integrate India into the global supply chain, George Standridge, vice-president (strategy and business development), Lockheed Martin Aeronautics, said, "India is an important partner for the US industry."

"The US and Indian defence industries are poised to work collaboratively, to position India as a major defence partner of the United States," Tom Bell, senior vice-president, Boeing Defense, said. In other deals, Airbus on Wednesday signed a memorandum of understanding for establishing a Centre of Excellence for aerospace skill development in Hyderabad, together with the government

of Telangana, National Skill Development Corporation India and AEROCAMPUS France. The Centre, which will come up at the Begumpet Airport, will train candidates on aircraft manufacturing, logistics, maintenance, repair and overhaul, ground handling and special aviation processes. Defence and

security company Saab has offered a fighter sensor package for the home-grown Tejas LCA Mk1A fighter aircraft. The package consists of a state-of-the-art Saab Airborne Electronically Scanned Array fighter radar close-

ly integrated with a compact electronic warfare suite using Gallium Nitride based AESA technology, the company said.

Hindustan Aeronautics said its overall investment over the next five to six years is expected to be about ₹17,500 crore, and it may go for loans from banks soon to fund its projects.

Such deals would help the military get access to critical

defence products at reasonable costs and with committed timelines. Defence Minister Manohar Parrikar has mandated that global firms should transfer critical technology that India lacks if they wanted to access the Indian market. He said partnerships with Indian companies would help local firms gain critical knowledge in building complex defence systems and equipment.

The government plans to spend \$100 billion to buy fighter planes, helicopters and ships and is looking at nearly half of these being sourced from the local market. India's offset policy mandates global companies source 30 per cent of the value of the military items sold over ₹300 crore from local companies. The biggest of the deals has been Reliance Defence's venture with French aircraft maker Rafale for ₹25,000-crore offsets to be sourced for the 36 Rafale jets' order. Meanwhile, DRDO said the extended range version of the Brahmos missile of 450 km is likely to be tested on March 10.

With inputs from PTI

India plans to spend \$100 billion to buy fighter planes, helicopters and ships and is looking at sourcing half of them from the local market

India, Israel to work on multiple entry biz visas

WHAT CEOs WANT

➤ Biz leaders have sought **more direct flights between India and Israel**, and promotion of **tourism and cultural exchanges**, among other things

➤ Indian CEOs have asked the Israel government for **longer-term multiple-entry business visas**, and opening up of the agriculture sector for tie-ups

➤ Israelis said India should have more effective intellectual property protection

► Continued from Page 1

The statement said the two PMs “tasked the India-Israel CEO Forum to come up with early recommendations” to boost bilateral cooperation in innovation and entrepreneurship.

The statement said the governments would work on “granting of multiple entry visas to business people for up to five years”, and would begin negotiations on an investment protection agreement. Israel will be the partner country for the annual Technology Summit to be

held in India in 2018.

The strategic MOUs signed on Thursday include those between Texmaco and Leshman-Lesico; Alpha Design and Elbit Land Systems; Elcomm Innovations and Ecopia Scientific; Wipro and Israel Aerospace; Dynamatics Technologies and Israel Aerospace and Elcom Systems; Cadila Healthcare and Phibro Animal Health Corporation; Sun and WaterGen; tGELF and LEAD; Tele-rad Tech and Zebra Medical Vision; Kalyani Strategic Systems and Israel Aerospace; and Mahindra and Shachaf.

प्रगत हवाई संरक्षण प्रणालीसाठी कल्याणी समूहाचे इस्रायलच्या 'आयएआय'बरोबर सामंजस्य

व्यापार प्रतिनिधी, मुंबई

भारत फोर्ज लिमिटेडची उपकंपनी कल्याणी स्ट्रॅटिजिक सिस्टीम्स लि.ने हवाई संरक्षण प्रणालीसाठी इस्रायल एअरोस्पेस इंडस्ट्रीज (आयएआय) बरोबर संयुक्त कंपनी स्थापण्याबाबत सामंजस्य करार केल्याचे गुरुवारी स्पष्ट केले. पंतप्रधान नरेंद्र मोदी हे इस्रायलच्या दौऱ्यावर असताना, झालेल्या करार-मदारांपैकी हा एक महत्वाचा करार आहे.

उभय कंपन्यांमध्ये झालेल्या या करारानुसार, हैदराबाद येथे प्रगत हवाई संरक्षण प्रणालीसाठी देखभाल केंद्र स्थापण्याबरोबरच, अचूक मारा

करणाऱ्या शस्त्रास्त्र प्रणालीचे विकसन, उत्पादन व विपणनासाठी संयुक्त रूपात काम करण्याचे त्यांनी

निर्धारित केले आहे. भारत सरकारच्या 'मेक इन इंडिया' कार्यक्रमांतर्गत उभय कंपन्यांकडून हा संयुक्तपणे उपक्रम

राबविला जाणार आहे.

भारत फोर्ज लिमिटेडचे अध्यक्ष व व्यवस्थापकीय संचालक बाबा कल्याणी आणि आयएआयचे अध्यक्ष व मुख्याधिकारी जोसेफ वाइस यांनी या सामंजस्य करारावर स्वाक्षऱ्या केल्या. या सामंजस्यातून उच्च तंत्रज्ञानाधारित क्षेत्रासाठी प्रणालीतील आयएआयचे ज्ञान व अनुभव आणि कल्याणी समूहाच्या अभियांत्रिकी प्रावीण्य आणि निर्माण सक्षमतेचा मिलाफ घडून येईल, असा विश्वास बाबा कल्याणी यांनी व्यक्त केला.

इस्रायलबरोबर तंत्रज्ञान भागीदारी वाढविण्याच्या पंतप्रधान मोदी यांच्या महत्वाकांक्षेला अनुसरूनच हे पाऊल टाकल्याचे ते म्हणाले.

आयएआय व कल्याणी समूहात करार

। नवी दिल्ली : हैदराबाद येथे आधुनिक हवाई संरक्षण व्यवस्थेसाठी देखरेख कारखाना स्थापन करण्यासाठी इस्त्रायल एरोस्पेस इंडस्ट्रीज आयएआय आणि कल्याणी स्ट्रॅटेजिक सिस्टीम्स लिमिटेड या कंपन्यांमध्ये व्यावसायिक करार नुकताच करण्यात आला आहे. दोन्ही कंपन्यांसाठी भारत फोर्ज लिमिटेड अनुषंगिक कंपनी आहे. या करारा अंतर्गत देशात प्रभावी शस्त्रास्त्र व्यवस्थेचा विकास करणे, निर्मिती करणे आणि संयुक्तपणे या कंपनीचे प्रचालन करणे यांचा समावेश आहे.

कल्याणी समूह आणि इस्रायलच्या कंपनीचा करार

बेंगळुरू, दि. १८ - कल्याणी समूहाच्या संरक्षण विभागातील कल्याणी स्ट्रॅटिजिक सिस्टिम्सने (केएसएसएल) इस्रायल एरोस्पेस इंडस्ट्रीज (आयएआय) यांच्याशी भारतामध्ये एक संयुक्त भागीदारी कंपनी स्थापन करण्यासाठी करार केला आहे. या सामंजस्य कराराचा भाग म्हणून केएसएसएल व आयएआय हवाई संरक्षण यंत्रणेचे उत्पादन आणि विक्री करणार आहेत. ज्यामध्ये जमिनीवरून जमिनीवर आणि जमिनीवरून समुद्रात मारा करू शकणाऱ्या युद्धसाहित्याचा पुरवठा केला जाईल.

या परस्पर सामंजस्य करारावर आयएआयचे अध्यक्ष जोसेफ वेईस आणि कल्याणी समूहाचे अध्यक्ष बाबा कल्याणी यांनी स्वाक्षऱ्या केल्या.

हा परस्पर सामंजस्य करार मेक इन इंडिया या धोरणांतर्गत हा संयुक्त भागीदारी उपक्रम भारतीय संरक्षण मंत्रालयासाठी स्टेट ऑफ दि आर्ट

संरक्षण यंत्रणा उभारेल.

कल्याणी म्हणाले, ही संयुक्त भागीदारी ही संरक्षण क्षेत्रामध्ये संपूर्णपणे देशात तयार केलेले तंत्रज्ञान पुरवू शकेल, जी 'मेक इन इंडिया' साठी सरकारने घेतलेल्या पुढाकाराला बळ देईल.

वेईस म्हणाले, ही भागीदारी, दोन अग्रणी कंपन्यांमधील उत्पादन क्षमता आणि तंत्रज्ञानातील उत्कृष्टता एकत्र आणेल. कल्याणी समूहातील संरक्षण आणि हवाई विभागाचे अध्यक्ष राजिंदर सिंह भाटिया म्हणाले, कल्याणी समूहाच्या उत्पादन क्षमता ही निश सेगमेंटमधल्या आयएआय च्या उत्पादन क्षमतेलाही पूरक ठरेल. आपल्या संरक्षण दलांसाठी आम्ही एकत्रितपणे अत्यंत आधुनिक असे उपाय पुरवू. आयएआयचा क्षेपणास्त्र आणि अवकाश समूहाचे नाते पूर्वीपासूनच भारतीय संरक्षण दलांसह उद्योगांशी आहे.

इस्रायल एअरोस्पेस इंडस्ट्रीजशी कल्याणी समूहाचा करार

पुणे : कल्याणी स्ट्रॅटेजिक सिस्टिम्सने इस्राएल एरोस्पेस इंडस्ट्रीजशी भारतामध्ये एक संयुक्त भागीदारी कंपनी स्थापन करण्यासाठी परस्पर सामंजस्य करार केला. कराराचा भाग म्हणून, विशिष्ट हवाई संरक्षण यंत्रणेचे उत्पादन आणि विक्री केली जाईल. ज्यामध्ये जमिनीवरून जमिनीवर आणि जमिनीवरून समुद्रात मारा करू शकणाऱ्या युद्धसाहित्याचा पुरवठा केला जाईल. करारावर बेंगळुरुमध्ये भरलेल्या एअरो-इंडिया एक्झिबिशनमध्ये, जोसेफ वेईस आणि कल्याणी समुहाचे अध्यक्ष बाबा कल्याणी यांनी स्वाक्षऱ्या केल्या.
