New Delhi – Bharat Forge, a Pune-based Indian conglomerate, celebrated World Youth Skills Day by demonstrating its commitment to youth skill development and its contribution to the national Skill India movement. The company recognized the significance of providing skill development opportunities to the youth, enabling them to secure employment or become self-employed.

Through its Corporate Social Responsibility (CSR) efforts, Bharat Forge actively supported the national agenda for Skill Development by implementing various initiatives. Bharat Forge established a Centre of Excellence in Baramati, where young individuals were equipped with new-age technology skills, including Internet of Things, Artificial Intelligence, Machine Learning, Robotics, Data Science, and more. This state-of-the-art facility empowered learners to excel in the digital era and contribute to India's technological advancement.

In partnership with four Government ITIs, Bharat Forge facilitated skill development through its Incubation Centre. As part of this initiative, the company was in the process of setting up a CNC simulation lab at ITI Khed, providing practical training opportunities and enhancing the skill sets of aspiring professionals.

Bharat Forge also undertook mentorship programs to upskill young farmers and budding engineers. By providing guidance, expertise, and real-world exposure, the company nurtured talents and equipped the youth with necessary skills to drive innovation and contribute to India's economic growth.

Through these initiatives, Bharat Forge actively contributed to building a skilled workforce, aligning with the vision of India as a global skills provider. The company empowered young individuals, fostered a culture of entrepreneurship, and facilitated integration into the evolving job market.

Bharat Forge's commitment to nurturing talent and supporting aspirations remains steadfast. The company's strategic partnerships, combined with cutting-edge technologies and mentorship programs, continue to create a lasting impact on skill development in India.

Bajaj Allianz Life Insurance has launched Bajaj Allianz Life ACE, a non-linked, participating, early income life insurance plan. Bajaj Allianz Life ACE is suitable for all those customers who are keen to create and control their income flow to plan for multiple life goals. Through this product, customers can now choose either a higher income to create an additional source of income, or a higher lumpsum to create a legacy or enjoy the balance of both regular income and lumpsum. All this in addition to the life cover the

product offers. Never have participating or savings life insurance plans offered customers this kind of flexibility and given them power of choice to design their income flow as per their needs.

Sahyadri Hospitals, the largest chain of hospitals in Maharashtra, recently performed the first documented case in India using the suction catheter to remove a clot from a blocked coronary artery. This procedure is a significant advancement in heart disease treatment as this device was used for the very first time to remove the arterial blockage. This procedure was performed recently on a 62-year-old patient from Pune. The patient was discharged on the third day after the procedure was carried out and has now fully recovered. During the procedure, the catheter was carefully guided to the blocked area of the artery, and a special vacuum pump suctioned out the clot. This resulted in a significant improvement in blood flow through the heart muscle, as indicated by the myocardial blush grade (MBG). This innovative system, combined with the suction engine, effectively and continuously removed the clot from the heart's blood vessels, improving blood flow and reducing the risk of further complications. The entire procedure, from inserting the catheter to removing the clot, took only 10 minutes. The patient also received medication to prevent further clotting and optimize treatment results.

<https://pune.news/city/pune/pune-bharat-forge-inspires-youth-with-skill-development-initiatives-on-world-youth-skills-day-48035/>

Pune, 15 July 2023 – Bharat Forge, an esteemed Indian conglomerate based in Pune, marked World Youth Skills Day by showcasing its unwavering dedication to youth skill development and its significant contribution to the national Skill India movement. Recognizing the importance of equipping young individuals with essential skills, Bharat Forge strives to empower them to secure employment opportunities or embark on entrepreneurial ventures.

As part of its Corporate Social Responsibility (CSR) endeavors, Bharat Forge has actively supported the national agenda for Skill Development by implementing a range of initiatives. One notable endeavor is the establishment of a state-of-the-art Centre of Excellence in Baramati. This center equips young learners with cutting-edge technology skills, such as Internet of Things, Artificial Intelligence, Machine Learning, Robotics, Data Science, and more. By providing training in these emerging fields, Bharat Forge empowers individuals to excel in the digital era and contribute to India's technological advancement.

Bharat Forge has also collaborated with four Government ITIs (Industrial Training Institutes) to facilitate skill development through its Incubation Centre. In line with this initiative, the company is in the process of establishing a CNC simulation lab at ITI Khed. This lab will provide aspiring professionals with practical training opportunities, enhancing their skill sets and preparing them for a promising future.

Moreover, Bharat Forge has taken a proactive approach by launching mentorship programs aimed at upskilling young farmers and aspiring engineers. Through these programs, the company provides invaluable guidance, expertise, and real-world exposure to nurture talent and equip youth with the necessary skills to drive innovation and contribute to India's economic growth.

By spearheading these initiatives, Bharat Forge actively contributes to the development of a skilled workforce, aligning with India's vision of becoming a global skills provider. The company is committed to empowering young individuals, fostering a culture of entrepreneurship, and facilitating their integration into the ever-evolving job market.

Bharat Forge's unwavering commitment to nurturing talent and supporting aspirations remains steadfast. Through strategic partnerships, cutting-edge technologies, and mentorship programs, the company continues to make a lasting impact on skill development in India. By empowering the youth, Bharat Forge paves the way for a brighter future, driving India's progress in various sectors and reinforcing its position on the global stage.
