Headline: Rolls-Royce Marine North America inks pact with Kalyani Strategic Service for naval marine propulsors	Publication : PTI
Date : February 17, 2023	

Rolls-Royce Marine North America has inked an initial pact with Pune-based Bharat Forge subsidiary KKSL for naval marine propulsors, the company said on Saturday.

The pact may include, but is not limited to, design and development, licensed manufacturing, pre-sales and sales support; installation, commissioning, testing and aftermarket services and support, Rolls-Royce said in a statement.

Kalyani Strategic Service Limited (KSSL) is a wholly-owned subsidiary of the Pune-based Bharat Forge.

Rolls-Royce's propulsion systems are designed to be used in all modern warships and the company is one of the key suppliers to the US Navy, according to the statement.

The signing of the Memorandum of Understanding (MoU) between the two firms is to explore the opportunity for Kalyani Strategic Service to become an in-country provider for propulsor sales within the Indian market, it said.

The new pact is expected to enable the creation of a local supply chain ecosystem in India for controllable pitch propellers and shafting, Rolls-Royce said.

The partnership with Kalyani Strategic Service Ltd and Bharat Forge will further strengthen the company's defence ecosystem in India, said Kishore Jayaraman, President for India and South Asia at Rolls-Royce.

“We believe this will build on our long history of making in India, for India, and for the world,” he added.

Bharat Forge is taking significant strides to indigenise critical systems and subsystems for the Armed Forces, Baba Kalyani, Chairman of Kalyani Group said.

“This strategic collaboration with Rolls-Royce is aimed at indigenously developing niche naval propulsion technologies and products for the Indian Navy,” he said.

Bharat Forge ties up with Rolls Royce

FE BUREAU
Pune, February 17

BHARAT FORGE SUBSIDIARY Kalyani Strategic Systems (KSSL), and Rolls-Royce Marine, North America, signed a memorandum of understanding on Friday to develop naval propulsion and shafting systems for the Indian market.

This would facilitate the creation of a local supply chain ecosystem in India for controllable pitch propellers and shafting systems as required by the Indian Navy, Bharat Forge said. KSSL is its wholly-

The tie-up will facilitate creation of a local supply chain ecosystem for controllable pitch propellers and shafting systems for the Navy

owned subsidiary formed to undertake defence business.

Baba Kalyani, chairman and managing director of Bharat Forge, said: "The Indian defence industry is at the cusp of a major transformation. Bharat Forge is taking significant strides to indigenise criti-

cal systems and sub-systems for the armed forces. This strategic collaboration with Rolls Royce, a legacy player in the naval ecosystem having a strong portfolio of technologically advanced products and offerings, is aimed at indigenously developing niche naval propulsion technologies and products for the Indian Navy."

Under the agreement signed at the Aero India 2023 show, KSSL will collaborate with Rolls-Royce for the design and development, licensed manufacturing, pre-sales and sales support, installation,

commissioning, testing, and aftermarket services and support of the propulsion systems.

Kishore Jayaraman, president, India and South Asia, Rolls-Royce said, the company was committed and well-positioned to offer advanced technology solutions to support India's naval modernisation.

Rolls-Royce develops and delivers propulsion solutions for safety-critical applications in the air, at sea and on land. It has over 50 years of expertise in designing and developing propellers around a large range of requirements.

Kalyani Strategic Systems signs MoU with Rolls-Royce Marine for development of naval propulsion systems

EXPRESS NEWS SERVICE
PUNE, FEBRUARY 18

KALYANI STRATEGIC Systems Limited (KSSL), a cent per cent subsidiary of Pune-headquartered engineering major Bharat Forge, has signed a Memorandum of Understanding (MoU) with Rolls-Royce Marine North America for the development of naval propulsion systems for the Indian market.

Under the agreement, KSSL will collaborate with Rolls-Royce

for the design and development, licensed manufacturing, pre-sales and sales support, installation, commissioning, testing, and after-market services and support of the propulsion systems. This would facilitate the creation of a local supply chain ecosystem in India for Controllable Pitch Propellers and Shafting systems as required by the Indian Navy, said a statement issued in this regard.

Speaking on the occasion, Baba Kalyani, Chairman and Managing Director of Bharat

Forge said, "In line with the Atmanirbhar Bharat mission, the Indian defence industry is at the cusp of a major transformation. We at Bharat Forge, are taking significant strides to indigenise critical systems and subsystems for the armed forces. This strategic collaboration with Rolls Royce, a legacy player in the naval ecosystem having a strong portfolio of technologically advanced products and offerings, is aimed at indigenously developing niche naval propulsion technologies and products for the Indian Navy."

‘कल्याणी सिस्टम्स’ - ‘रोल्स-रॉइस मरिन’ करार

भारत फोर्जच्या कल्याणी स्ट्रॅटिजिक सिस्टम्स लिमिटेड (केएसएसएल) या उपकंपनीने भारतीय बाजारपेठेसाठी नौदल प्रणोदन प्रणाली विकसित करण्यासाठी उत्तर अमेरिकेच्या रोल्स-रॉइस मरिन कंपनीसोबत सामंजस्य करार केला.

यानुसार केएसएसएल हे प्रणोदन प्रणालीच्या डिझाइन आणि विकास, परवानाकृत उत्पादन, पूर्व विक्री आणि विक्री अहवाल, कमिशनिंग, चाचणी आदींसाठी रोल्स-रॉइससोबत सहयोग करेल. ‘रोल्स रॉइस’च्या भारत व दक्षिण आशियाचे अध्यक्ष किशोर जयरामन म्हणाले, “ सशस्त्र दलांच्या गरजा पूर्ण करण्यासाठी रोल्स रॉइस कटिबद्ध आहे. या कराराने भारतातील आमची संरक्षण परिसंस्था आणखी मजबूत होईल.”

बंगळूर : कल्याणी स्ट्रॅटिजिक सिस्टम्स लिमिटेड आणि रोल्स-रॉइस मरिन यांच्यात सामंजस्य करारप्रसंगी दोन्ही कंपन्यांचे अधिकारी.

आत्मनिर्भर भारतच्या अनुषंगाने, संरक्षण उद्योग मोठ्या परिवर्तनाच्या उंबरठ्यावर आहे. त्यात भारत फोर्जद्वारे सशस्त्र दलांसाठी जटिल प्रणाली बनविण्यासाठी योगदान दिले जात आहे. तसेच रोल्स रॉइससोबतच्या या धोरणात्मक सहकार्याच्या माध्यमातून भारतीय नौदलासाठी स्वदेशी प्रणोदन तंत्रज्ञान आणि उत्पादने विकसित करण्याचा उद्देश आहे.

Kalyani Strategic Systems Limited (KSSL), a 100% subsidiary of Bharat Forge, signed a Memorandum of Understanding (MOU) with Rolls-Royce Marine North America for the development of naval propulsion systems for the Indian market.

Under the agreement, KSSL will collaborate with Rolls-Royce for the design and development, licensed manufacturing, pre-sales and sales support, installation, commissioning, testing, and aftermarket services and support of the propulsion systems. This would facilitate the creation of a local supply chain ecosystem in India for Controllable Pitch Propellers and Shafting systems as required by the Indian Navy.

Speaking on the occasion, Baba Kalyani, Chairman and Managing Director of Bharat Forge said, "In line with the Aatmanirbhar Bharat mission, the Indian Defence Industry is at the cusp of a major transformation. We at Bharat Forge Ltd., are taking significant strides to indigenize critical systems and sub-systems for the Armed Forces. This strategic collaboration with Rolls Royce, a legacy player in the naval ecosystem having a strong portfolio of technologically advanced products and offerings, is aimed at indigenously developing niche naval propulsion technologies and products for the Indian Navy."

Commenting on the partnership, Kishore Jayaraman, President India and South Asia, Rolls-Royce said, "Rolls-Royce is committed to serving the evolving needs of the Indian armed forces, and well-positioned to offer advanced technology solutions to support India's naval modernisation vision. We are delighted to partner with Kalyani Strategic Systems Limited/ Bharat Forge, to further strengthen our defence ecosystem in India. We believe this will build on our long history of making in India, for India, and for the world."

He further added that "We are committed to working with companies like KSSL/Bharat Forge, whose reputation for excellence and dedication to quality is synergistic with ours, as we continue to deliver technology innovations and cutting-edge systems for undersea and surface platforms."

Kalyani Strategic Systems Limited (KSSL) is the wholly owned subsidiary of Bharat Forge Limited formed to specifically undertake all its defence business. Bharat Forge Limited (BFL) is the flagship company of the Kalyani Group and in its Defence profile, Bharat Forge has expertise in design, development, engineering and manufacturing in systems and sub-systems space for Artillery Guns, Armoured Fighting Vehicles, Protected Vehicles, Ammunition, Defence Electronics, Small Arms and Marine solutions.

Rolls-Royce develops and delivers propulsion solutions for safety-critical applications in the air, at sea and on land. Rolls-Royce has customers in more than 150 countries, comprising more than 160 armed forces and navies, and more than 5,000 power and nuclear customers. Rolls-Royce has over 50 years of expertise in designing and developing propellers around a large range of requirements. Successful and well-proven across the globe, its propellers are designed for robustness, reliability and efficiency, ensuring excellent cavitation performance as well as low vibration, noise levels and excellent fuel efficiency. The Controllable Pitch, Fixed Pitch and Fixed Bolted Pitch options ensure excellent hydrodynamic efficiency, supporting overall vessel performance and stealth characteristics for naval operations.

<https://www.equitypandit.com/rolls-royce-unit-signs-agreement-with-bharat-forge-subsidiary-for-naval-marine-propulsors/>

On Saturday, Rolls-Royce Marine North America said it had signed a preliminary agreement with Pune-based Bharat Forge subsidiary Kalyani Strategic Service Ltd (KSSL) for naval marine propulsion.

The agreement may include, but is not limited to, design and development, license manufacturing, pre-sales and sales support; installation, commissioning, testing and aftermarket service and support, Rolls-Royce said in a statement.

Kalyani Strategic Service Ltd (KSSL) is a wholly owned subsidiary of Bharat Forge in Pune.

The statement said that Rolls-Royce's propulsion systems are designed to be used on all modern warships, and the company is one of the leading suppliers to the US Navy.

The two companies signed a Memorandum of Understanding (MoU) to explore opportunities for Kalyani Strategic Service to become a domestic supplier for propeller sales in the Indian market.

Rolls-Royce said the new agreement is expected to create a local supply chain ecosystem for controllable pitch propellers and shafting in India.

Kishore Jayaraman, President of Rolls-Royce India and South Asia, said the partnership with Kalyani Strategic Service Ltd and Bharat Forge would further strengthen the company's defence ecosystem in India.

Baba Kalyani, chairman of Kalyani Group, said that Bharat Forge is making significant progress towards localising critical systems and subsystems of the armed forces.

Formed in 1986, Capital Market Publishers India Pvt Ltd pioneered corporate databases and stock market magazine in India. Today Capitaline corporate database cover more than 35,000 listed and unlisted Indian companies. Latest technologies and standards are constantly being adopted to keep the database user-friendly, comprehensive and up-to-date.

Over the years the scope of the databases has enlarged to cover economy, sectors, mutual funds, commodities and news. Many innovative online and offline applications of these databases have been developed to meet various common as well as customized requirements.

While all the leading institutional investors use Capitaline databases, Capital Market magazine gives access to the databases to individual investors through Corporate Scoreboard. Besides stock market and company-related articles, the magazine's independent and insightful coverage includes mutual funds, taxation, commodities and personal finance.

The power of the database is harnessed by our fired-up reporters to generate interesting ideas. The reader-friendly presentation of the idea, supplemented by relevant data and information, can be accessed online through Capita Telefolio and Telefolio Gold. These ideas are used by individual investors as well as institutional investors to do further research and stay ahead.

सरकारी स्वामित्व वाली रक्षा क्षेत्र की अग्रणी कंपनी एचएएल और भारत फोर्ज लिमिटेड ने एयरोस्पेस ग्रेड स्टील मिश्र धातुओं के विकास और उत्पादन के लिए एक समझौते पर हस्ताक्षर किए हैं।

इस सौदे की जानकारी गुरुवार को एक संयुक्त बयान के जरिये दी गयी। इसमें कहा गया है कि बेंगलुरु में चल रहे एयरो इंडिया शो में हिंदुस्तान एयरोनॉटिक्स (HAL), फाउंड्री एंड फोर्ज (F&F) डिवीजन, सारलोहा एडवांस्ड मैटेरियल्स प्राइवेट (Saarloha) और भारत फोर्ज (Bharat Forge) ने एयरोस्पेस ग्रेड स्टील मिश्र धातुओं के विकास और उत्पादन में सहयोग के लिए सहमति पत्र (MoU) पर हस्ताक्षर किए। सारलोहा और भारत फोर्ज लिमिटेड कल्याणी समूह का हिस्सा हैं।

सारलोहा के निदेशक आर के गोयल ने कहा, आत्मनिर्भर भारत पहल के तहत राष्ट्रीय एयरोस्पेस और रक्षा कार्यक्रमों की सफलता को साकार करने में विशेष इस्पात का विनिर्माण महत्वपूर्ण भूमिका निभाएगा।

भारत फोर्ज के एयरोस्पेस डिवीजन के सीईओ गुरु बिस्वाल ने कहा कि विमान अनुप्रयोगों में उपयोग किए जाने वाले विभिन्न प्रकार के एयरोस्पेस ग्रेड स्टील मिश्र धातुओं के लिए बहुत सीमित योग्य घरेलू आपूर्तिकर्ता हैं। इस वजह से इस तरह के मिश्र धातुओं के लिए देश को विदेशी इस्पात निर्माताओं पर निर्भर होना पड़ता है।

एचएएल में एफ एंड एफ के कार्यकारी निदेशक एम एस वेंकटेश ने कहा कि इस सौदे से कच्चे माल के संबंध में विदेशी ओईएम (मूल उपकरण निर्माताओं) पर देश की निर्भरता भी कम करने में मदद मिलेगी।

Rolls-Royce Marine North America has inked an initial pact with Pune-based Bharat Forge subsidiary Kalyani Strategic Service Ltd. (KSSL) for naval marine propulsors, the company said on Saturday.

The pact may include, but is not limited to, design and development, licensed manufacturing, pre-sales and sales support; installation, commissioning, testing and aftermarket services and support, Rolls-Royce said in a statement.

Kalyani Strategic Service Ltd. (KSSL) is a wholly-owned subsidiary of the Pune-based Bharat Forge.

Rolls-Royce's propulsion systems are designed to be used in all modern warships and the company is one of the key suppliers to the US Navy, according to the statement.

The signing of the Memorandum of Understanding (MoU) between the two firms is to explore the opportunity for Kalyani Strategic Service to become an in-country provider for propulsor sales within the Indian market, it said.

The new pact is expected to enable the creation of a local supply chain ecosystem in India for controllable pitch propellers and shafting, Rolls-Royce said.

The partnership with Kalyani Strategic Service Ltd. and Bharat Forge will further strengthen the company's defence ecosystem in India, said Kishore Jayaraman, President for India and South Asia at Rolls-Royce.

'We believe this will build on our long history of making in India, for India, and for the world,' he added.

Bharat Forge is taking significant strides to indigenise critical systems and subsystems for the Armed Forces, Baba Kalyani, Chairman of Kalyani Group said.

'This strategic collaboration with Rolls-Royce is aimed at indigenously developing niche naval propulsion technologies and products for the Indian Navy,' he said.
