Place : Dimapur (Nagaland)

“A skilling journey in the North-east ”

Innovation Fair - 2026

- We had set up the skills lab in two government schools at Dimapur (Nagaland)
- The lab is equipped with 3D printer, Robotics kits, different STEM equipment's along with 'do it yourself' kits etc. and the purpose of setting up this lab is to create the technical awareness in the minds of students from school days.
- After learning different STEM concepts, students prepared different projects which were showcased in the Innovation Fair on 25th Feb. 2026.
- Shri Deenabandhu Panda, Additional Director, Department of School Education, Government of Nagaland, was present at the event.

Centre of Excellence (CoE) at NTTC - Nagaland tool room and training center

- Last year we had set up the Centre of Excellence at NTTC providing the new edge technologies in the center like drone technology, 3D printing, mini smart factory having Industry 4.0 applications, simulations for robotics and CNC etc.
- Students from existing CoE are undergoing training for ‘Jobs in Germany’ and in next few months they will be getting employment in Germany after completion of the training.
- This year the center will further strengthen by adding the technologies like Advance electrical industrial controls, hands on home wiring along with simulation, AI & IoT software and hardware kits, 6 axis cobot etc.

1st Batch of students preparing for Jobs in Germany

Place : Aizawl (Mizoram)

Work in progress

“A skilling journey in the North-east ”

- As part of North East CSR initiative we are setting up the New Age Technology Skills lab at one of the government schools in Aizawl (Mizoram).
- This lab will give the technical orientation to the children from school days itself.
- The lab consists the technologies like 3D printing, drone, CNC Simulations, robot, AI & IoT STEM kits etc.
- The lab will be inaugurated in the next month.

Ongoing work of skills lab at Govt. comprehensive model school - Aizawl (Mizoram)

Project Vidyanjali

Session on 'Creativity and Innovation'

- As part of Vidyanjali project, which is the Government of India's initiative, we are supporting for the higher education of North East students.
- 29 students are getting financial support for their education and the mentorship is provided under this program.
- As part of mentorship, we are conducting different sessions for these students and in this month a session on 'Creativity and Innovation' was conducted for these students.

awareO

What is it ? Discovery ? Invention ? Innovation

AI model predicts diabetic retinopathy from eye scans

Did the disease exist → Discovery?
Model design → Invention
Hospital implementation → Innovation

Q & A / Participants Sharing

Be curious !
Experiment fearlessly. Connect ideas.
Turn imagination into action - that's where innovation begins.
Your creativity is the spark; your effort is the flame.

What is Invention

- An invention is a unique or novel device, method, composition or process. The invention process is a process within an overall engineering and product development process.

Simply put,
Creating something tangible or functional based on that discovery — a tool, device, or method that didn't exist before.

For Ex : Electric Bulb, Steam Engine, Penicillin Drug , [Art Fry - Repositionable Post It Notes]

Invention = Making something new from a discovery — creating a tool, product, or method that didn't exist before.

Environment Education Initiative

- Under the CSR initiative, we have started NisargRang - a fortnightly newspaper.
- We are distributing it to the school going children and the objective of this initiative is to increase the knowledge of the students in the area of environment, biodiversity and sustainability.
- The topic related to biodiversity gets discussed amongst the students. We also organize the competitions on these topics.
- Currently more than 1,500 students are reading this newspaper.
